Economic Justice and Worker Organizing Wins

“We are so proud of and thankful for the WGA artists who stood up and demanded better working conditions for themselves and for their peers. We are gratified by the support they received from other union members, the American public, and artist workers everywhere. We at Creatives Rebuild New York (CRNY) will take lessons from this strike as we continue our work to support artists of all kinds living in economic precarity across New York State.”

Support the Arts Education for All Act! "The Arts Education for All Act is the broadest arts education policy bill ever introduced in Congress, introduced by Representative Suzanne Bonamici (D-OR). The bill includes key provisions that will support and encourage the offering of arts education and programming experiences to Americans including our youngest learners, K-12 students, and youth impacted by the juvenile justice system. Crucially, the bill will also include provisions that would allow for rigorous arts and arts education research to be carried out, to further inform how elementary and secondary education in our country is improved. Support the SSI Savings Penalty Elimination Act! "The Supplemental Security Income (SSI) program provides critical support for millions of people with disabilities to help afford the basics of everyday life, like food and rent. But SSI has many rules that make it hard for people to save money and get out of poverty. SSI has an asset limit that has not been updated since 1989! These limits mean that people cannot save money, and they force people with disabilities into poverty. [Tell Congress to support the SSI Savings Penalty Elimination Act.](#)"
